

## Basil Leaf Coloring Crosses

### INSTRUCTIONS:

1. Give each student a Basil leaf to color. Cut out.
2. Using construction paper, cut out a large CROSS or TREE and hang at front of the classroom.
  - **Option #1:** Have students attach (glue) their colored Basil leaf to your class Cross/Tree, creating one, "basil-covered" cross/tree.
  - **Option #2:** After students color their Basil leaf, attach (staple works best) a piece of fresh basil. Attach to your class Cross/Tree.
3. If time, allow students to make another Basil leaf to take home.
